— BUILT TO LAST. TRUSTED TO PERFORM. —

PRODUCT CATALOG

HAND TOOLS COLLECTION

PREMIUM QUALITY

Carefully selected materials for superior quality.

STRONG & DURABLE

Built to withstand the toughest working conditions.

EXCEPTIONAL PERFORMANCE

Designed for maximum efficiency and productivity.

COMFORTABLE GRIP

Ergonomic design for safer and easier work.

RUST RESISTANT

Anti-rust treatment for long lasting protection.

WIDE APPLICATION

Ideal for various industries and applications.

No. 20127, Street 4,
East 1st Floor, Zone 2,

A BETTER FUTURE
TOGETHER!

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

ROUND POINT SHOVEL

CODE: WR-SH-001

WESAMROX Round Point Shovel is designed for heavy-duty performance in construction, agriculture and industrial applications. Built with strong materials for maximum durability.

HIGH QUALITY STEEL

High carbon steel blade for superior strength and long life.

STRONG & DURABLE

Heavy duty construction for tough working conditions.

ERGONOMIC DESIGN

Comfortable D-handle for better grip and control.

RUST RESISTANT

Powder coated finish protects against rust and corrosion.

01
PRODUCT

SPECIFICATIONS

Blade Size	290 x 220 mm
Handle Type	D-Handle
Handle Length	1050 mm
Overall Length	1300 mm
Weight	1.80 kg
Material	High Carbon Steel
Handle Pipe	Fiberglass with PP Grip
Packing	6 pcs / ctn

PRODUCT DETAILS

ROUND POINT BLADE

Easy penetration in soil, ideal for digging and lifting.

FIBERGLASS HANDLE

Lightweight, strong and durable fiberglass handle.

COMFORT D-HANDLE

Ergonomic design for better grip and control.

STRONG SOCKET

Reinforced socket for extra strength.

PICKAXE

CODE: WR-PX-002

WESAMROX Pickaxe is built for breaking hard ground, digging, and trenching in tough conditions. Engineered for strength, balance and long-lasting performance.

HIGH STRENGTH HEAD

Drop forged steel head for maximum strength and impact resistance.

STRONG & DURABLE

Built for heavy-duty use in extreme working conditions.

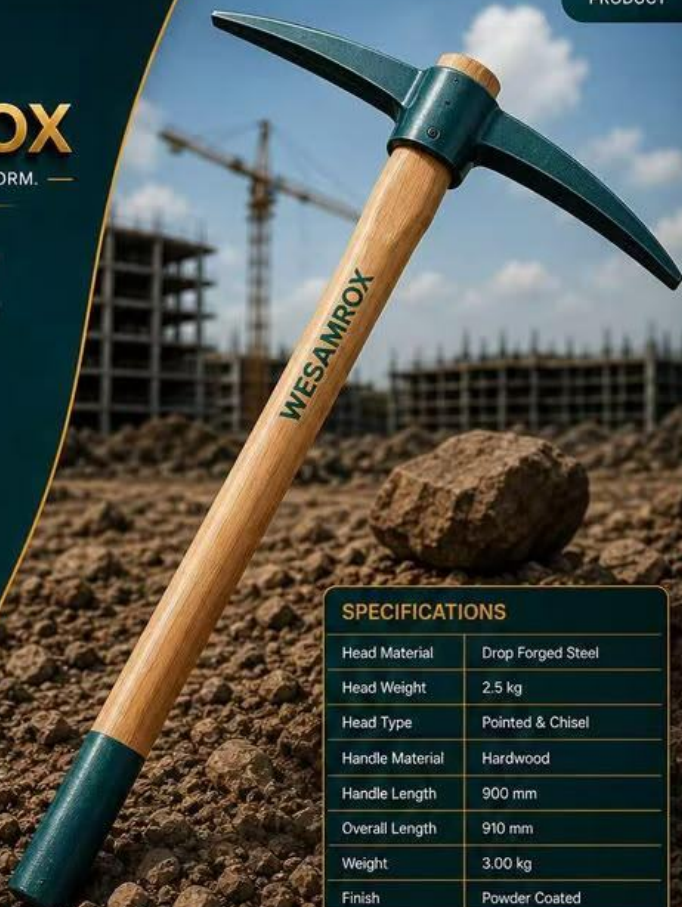

PERFECT BALANCE

Well balanced design for powerful and efficient performance.

COMFORT GRIP

Smooth wooden handle for comfortable and secure grip.

SPECIFICATIONS

Head Material	Drop Forged Steel
Head Weight	2.5 kg
Head Type	Pointed & Chisel
Handle Material	Hardwood
Handle Length	900 mm
Overall Length	910 mm
Weight	3.00 kg
Finish	Powder Coated
Packing	4 pcs / carton
Application	Digging, Breaking, Trenching, Mining, Construction

PRODUCT DETAILS

DROP FORGED HEAD

Heat treated steel head for superior strength and durability.

SHARP POINT

Sharp point for breaking hard soil and rocks.

CHISEL BLADE

Wide chisel blade for cutting and loosening tough ground.

PICKAXE MATTOCK TYPE

CODE: WR-PX-003

WESAMROX Mattock Pickaxe is designed for durability and efficiency in breaking, digging, and loosening hard soil, rocks and compact surfaces. Ideal for construction, agriculture and mining applications.

HIGH STRENGTH HEAD

Drop forged steel head for maximum strength and impact resistance.

STRONG & DURABLE

Built for heavy-duty use in extreme working conditions.

PERFECT BALANCE

Well balanced design for powerful and efficient performance.

COMFORT GRIP

Smooth wooden handle for comfortable and secure grip.

SPECIFICATIONS

Head Material	Drop Forged Steel
Head Weight	2.8 kg
Head Type	Mattock (Pick + Hoe)
Handle Material	Hardwood
Handle Length	900 mm
Overall Length	920 mm
Weight	3.20 kg
Finish	Powder Coated
Packing	4 pcs / carton
Application	Digging, Breaking, Trenching, Gardening, Construction

PRODUCT DETAILS

MATTOCK HEAD

Drop forged steel head for superior strength and durability.

POINTED PICK

Sharp pick end for breaking hard soil, rocks and concrete.

FLAT HOE BLADE

Wide blade for cutting roots and loosening tough ground.

SHOVEL BLADE (WITHOUT HANDLE)

CODE: WR-SB-004

WESAMROX Shovel Blade is made from high quality steel for superior strength and durability. Ideal for digging, lifting and moving soil, sand, gravel and other materials.

HIGH QUALITY STEEL

Made of premium steel for maximum strength and long service life.

STRONG & DURABLE

Built to withstand heavy work and tough conditions.

HEAT TREATED

Heat treated for extra hardness and wear resistance.

ANTI RUST COATING

Powder coated finish for rust protection and corrosion resistance.

WIDE APPLICATION

Ideal for construction, agriculture, gardening and landscaping.

SPECIFICATIONS

Blade Size	290 x 230 mm
Blade Type	Round Point
Socket Diameter	38 mm
Socket Length	110 mm
Blade Thickness	2.0 mm
Material	High Carbon Steel
Finish	Powder Coated
Weight	0.95 kg
Packing	10 pcs / carton
Application	Digging, Lifting, Moving Materials

PRODUCT DETAILS

ROUND POINT BLADE

Sharp round point for easy penetration and efficient digging.

REINFORCED SOCKET

Strong socket for secure handle connection and extra strength.

CENTER RIB DESIGN

Ribbed design for added strength and better load support.

GARDEN FORK

(4-TINE FORK WITH D-HANDLE)

CODE: WR-GF-006

WESAMROX Garden Fork is designed for turning, lifting and loosening soil, manure, compost and other heavy materials. Ideal for farming, gardening and general outdoor use. Built for strength, balance and long-lasting performance.

HIGH STRENGTH STEEL

Heavy-duty steel tines for maximum strength and long service life.

STRONG & DURABLE

Built to withstand heavy work and tough working conditions.

ERGONOMIC DESIGN

Well balanced for reducing fatigue and improving efficiency.

RUST RESISTANT

Powder coated finish provides excellent rust and corrosion resistance.

WIDE APPLICATION

Perfect for farming, livestock, gardening, landscaping and construction work.

SPECIFICATIONS

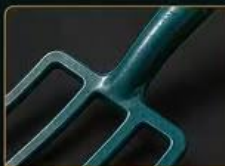

Number of Tines	4
Tine Material	High Carbon Steel
Tine Length	280 mm
Tine Diameter	10 mm
Tine Width	260 mm

CLAW HAMMER

CODE: WR-CH-007

WESAMROX Claw Hammer is built for strength, balance and durability. Perfect for driving nails, removing nails and general construction work. Designed for professionals who demand reliable tools.

HIGH CARBON STEEL

Forged from premium high carbon steel for superior strength and long life.

STRONG & DURABLE

One-piece forged construction for maximum durability and impact resistance.

PERFECT BALANCE

Well balanced design for better control and reduced user fatigue.

COMFORT GRIP

Ergonomic handle with anti-slip grip for comfort and secure hold.

RUST RESISTANT

Powder coated finish protects against rust, corrosion and wear.

SPECIFICATIONS

Head Material	High Carbon Steel
Head Weight	16 oz (450 g)
Head Type	Claw
Face Type	Smooth
Handle Material	Fiberglass Core with TPR Grip
Handle Length	330 mm
Overall Length	340 mm
Weight	0.70 kg
Finish	Powder Coated
Packing	6 pcs / carton
Application	Driving Nails, Removing Nails, Construction Work, Carpentry

PRODUCT DETAILS

SMOOTH STRIKING FACE

Smooth face for powerful strikes and nail driving.

STRONG CLAW

Curved claw for easy and efficient nail removal.

ANTI-SLIP GRIP

Textured TPR grip for secure hold and comfort.

SHOCK ABSORBING

Fiberglass core reduces vibration and impact.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

CLAW HAMMER

CODE: WR-HM-008

WESAMROX Claw Hammer is engineered for durability, balance and maximum performance. Ideal for driving nails, removing nails and a wide range of construction and carpentry tasks.

PREMIUM STEEL HEAD

Forged from high carbon steel for superior strength and long-lasting durability.

STRONG & DURABLE

One-piece construction for high impact resistance and heavy-duty use.

PERFECT BALANCE

Well balanced design reduces fatigue and improves accuracy and control.

COMFORT GRIP

Ergonomic handle with anti-slip grip for comfort and secure handling.

RUST RESISTANT

Powder coated finish protects against rust, corrosion and wear in tough conditions.

SPECIFICATIONS

Head Material	High Carbon Steel
Head Weight	16 oz (450 g)
Head Type	Claw
Face Type	Smooth
Handle Material	Fiberglass Core with TPR Grip
Handle Length	330 mm
Overall Length	340 mm
Weight	0.72 kg
Finish	Powder Coated
Packing	6 pcs / carton
Application	Driving Nails, Removing Nails, Construction Work, Carpentry

PRODUCT DETAILS

SMOOTH STRIKING FACE

Smooth face for powerful strikes and less damage.

CURVED CLAW

Curved claw for easy and efficient nail removal.

ANTI-SLIP GRIP

Textured TPR grip for secure hold and maximum control.

SHOCK ABSORBING END

Shock absorbing end reduces vibration and user fatigue.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

PICKAXE

(WITH FIBERGLASS HANDLE)

CODE: WR-PX-009

WESAMROX Pickaxe is built for breaking hard ground, digging, trenching and excavation work. The sharp pointed end and flat chisel end provide maximum efficiency and durability in tough working conditions.

HIGH CARBON STEEL HEAD

Heat treated steel head for superior strength, sharpness and long service life.

STRONG & DURABLE

Built to withstand heavy impacts and extreme working conditions.

FIBERGLASS HANDLE

Shock absorbent, lightweight and non-slip handle for better control and safety.

SAFETY & COMFORT

Ergonomic design reduces vibration and improves user comfort.

RUST RESISTANT

Powder coated finish protects against rust and corrosion.

WIDE APPLICATION

Ideal for construction, mining, agriculture and general excavation.

09
PRODUCT

SPECIFICATIONS

Head Material	High Carbon Steel
Head Weight	2.5 kg
Head Type	Point & Chisel
Point Length	320 mm
Chisel Width	45 mm
Handle Material	Fiberglass
Handle Length	900 mm
Handle Diameter	32 mm
Overall Length	910 mm
Weight	3.10 kg
Finish	Powder Coated
Packing	4 pcs / carton
Application	Digging, Breaking, Trenching, Excavation

PRODUCT DETAILS

HEAT TREATED HEAD

Strong and sharp head for efficient breaking and digging.

SECURE HEAD CONNECTION

Tightly fixed head to prevent loosening during heavy use.

FIBERGLASS HANDLE

Lightweight, shock absorbent and built for long lasting use.

NON-SLIP GRIP

Ergonomic rubber grip for maximum control and comfort.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

BOLT CUTTER (HEAVY DUTY)

CODE: WR-BC-010

WESAMROX Bolt Cutter is designed for efficiently cutting bolts, chains, padlocks, rebar and other tough metals. Manufactured from premium materials for maximum strength, durability and long service life.

HIGH CARBON STEEL JAWS

Forged from high carbon steel for exceptional hardness and cutting performance.

POWERFUL CUTTING

Designed for maximum leverage and ease of cutting hard metals with less effort.

STRONG & DURABLE

Heavy duty construction for high strength, impact resistance and long lasting use.

COMFORT GRIP HANDLES

Ergonomic non-slip grips for better control, comfort and safe operation.

RUST RESISTANT

Powder coated finish protects against rust, corrosion and harsh working conditions.

WIDE APPLICATION

Ideal for construction, industrial, maintenance, fencing and metal fabrication work.

10
PRODUCT

SPECIFICATIONS

Size	24 inch (600 mm)
Cutting Capacity	Ø 10 mm (Soft Steel) Ø 8 mm (Hard Steel)
Jaw Material	High Carbon Steel
Handle Material	Steel Tube
Grip Material	TPR Non-slip
Overall Length	600 mm
Weight	2.35 kg
Finish	Powder Coated
Packing	6 pcs / carton
Application	Cutting Bolts, Chains, Padlocks, Rebar, Metal Rods, Wires

PRODUCT DETAILS

SHARP & STRONG JAWS

Precision forged jaws for clean cuts and long lasting sharpness.

SOLID LINKAGE SYSTEM

Reinforced linkage for smooth operation and maximum power transmission.

HEAVY DUTY HANDLES

High strength steel handles built to withstand heavy loads and tough jobs.

NON-SLIP COMFORT GRIP

Ergonomic TPR grips provide comfort, anti-slip control and reduce hand fatigue.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

SQUARE POINT SHOVEL

(WITH FIBERGLASS HANDLE)

CODE: WR-SH-011

WESAMROX Square Point Shovel is built for strength, durability and efficiency. Ideal for digging, lifting, moving and landscaping tasks in construction, agriculture and industrial work.

STRONG & DURABLE BLADE

Heat treated carbon steel blade with square point design for easy penetration and long life.

HEAVY DUTY PERFORMANCE

Perfect for digging hard soil, gravel, sand and other tough materials.

FIBERGLASS HANDLE

Lightweight fiberglass handle reduces vibration and provides maximum strength.

COMFORT D-GRIP

Ergonomic D-shaped grip for comfortable handling and better control.

RUST RESISTANT

Powder coated finish protects against rust, corrosion and harsh environments.

WIDE APPLICATION

Ideal for construction, farming, gardening, landscaping and general outdoor work.

COMBINATION PLIERS

(HEAVY DUTY)

CODE: WR-PL-012

WESAMROX Combination Pliers are designed for gripping, bending, cutting and holding tasks. Made from premium materials for maximum strength, durability and long-lasting performance in professional and industrial use.

HIGH CARBON STEEL

Forged from high carbon steel for superior strength, wear resistance and long service life.

MULTI-FUNCTIONAL

Ideal for gripping, bending, twisting, cutting wires and small components.

INDUCTION HARDENED CUTTER

Precision cutting edge is induction hardened for clean and easy cuts.

ERGONOMIC GRIP

Comfortable non-slip handle provides excellent control and reduces hand fatigue.

STRONG & DURABLE

Built to withstand heavy use in tough working conditions.

RUST RESISTANT

Anti-rust coating protects against corrosion and extends tool life.

12
PRODUCT

SPECIFICATIONS

Material	High Carbon Steel
Length	8 inch (200 mm)
Jaw Type	Combination
Cutting Edge	Induction Hardened
Handle Material	TPR Non-slip Grip
Hardness	HRC 58-62
Weight	280 g
Finish	Anti-Rust Coated
Packing	6 pcs / carton
Application	Gripping, Bending, Cutting, Holding, Twisting, Wire Work, General Repairs

PRODUCT DETAILS

STRONG JAWS

Serrated jaws for extra grip on pipes, nuts and flat surfaces.

SHARP CUTTER

Hardened cutting edge cuts wires cleanly and with less effort.

SMOOTH JOINT

Precision machined joint ensures smooth operation and long durability.

COMFORT GRIP

Ergonomic dual-color grip for comfort, control and non-slip handling.

HANGING HOLE

Convenient hole for easy hanging and storage.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

LONG NOSE PLIERS

(HEAVY DUTY)

CODE: WR-LNP-013

WESAMROX Long Nose Pliers are precision-engineered for gripping, bending and cutting in tight spaces. Made from premium materials for maximum strength, durability and reliable performance.

PRECISION LONG NOSE

Slender tapered jaws for access to confined areas and precision gripping.

INDUCTION HARDENED CUTTER

Sharp cutting edge cuts wire cleanly and stays sharper longer.

STRONG & DURABLE

Forged from high carbon steel for superior strength and long service life.

COMFORT GRIP

Ergonomic non-slip handle reduces fatigue and provides excellent control.

RUST RESISTANT

Anti-rust coating protects against corrosion and harsh environments.

WIDE APPLICATION

Ideal for electrical, mechanical, automotive, DIY, jewelry making and repair work.

13
PRODUCT

SPECIFICATIONS

Material	High Carbon Steel
Length	8 inch (200 mm)
Jaw Type	Long Nose
Jaw Length	70 mm
Jaw Width	18 mm
Cutter Type	Induction Hardened
Handle Material	TPR Non-slip Grip
Hardness	HRC 58-62
Weight	210 g
Finish	Anti-Rust Coated
Packing	6 pcs / carton
Application	Gripping, Bending, Cutting, Electrical Work, Mechanical Repair, DIY Projects

PRODUCT DETAILS

LONG NOSE JAWS

Tapered jaws for precision grip in tight and narrow spaces.

SHARP CUTTER

Induction hardened cutter for clean cuts on wires and cables.

SMOOTH JOINT

Precision machined joint ensures smooth movement and long durability.

COMFORT GRIP

Ergonomic dual-color grip for comfort, control and non-slip handling.

HANGING HOLE

Convenient hole for easy hanging and storage.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

PIPE WRENCH

(HEAVY DUTY)

CODE: WR-PW-014

WESAMROX Pipe Wrench is designed for professional use in plumbing, construction and industrial applications. Engineered for superior grip, maximum torque and long-lasting durability even in the most demanding environments.

STRONG & DURABLE

Forged from high carbon steel for exceptional strength and long service life.

POWERFUL GRIP

Precision machined jaws with sharp teeth for a firm, non-slip grip on pipes and fittings.

ADJUSTABLE JAW

Smooth adjustment nut for quick size changes and secure locking.

HEAVY DUTY BODY

Thick, solid body construction for high torque and heavy workload performance.

RUST RESISTANT

Anti-rust coating protects against corrosion and harsh working conditions.

WIDE APPLICATION

Ideal for plumbing, pipe installation, maintenance, construction and industrial use.

14
PRODUCT

SPECIFICATIONS

Size	14 inch (350 mm)
Max Jaw Opening	50 mm (2 inch)
Jaw Material	High Carbon Steel
Body Material	Ductile Cast Iron
Handle Type	Straight Handle
Adjustment Type	Knurled Nut
Tooth Type	Heat Treated Teeth
Overall Length	350 mm
Weight	1.25 kg
Finish	Anti-Rust Coated
Packing	6 pcs / carton
Application	Plumbing, Pipe Fitting, Industrial, Construction, Maintenance

PRODUCT DETAILS

STRONG JAWS

Heat treated jaws with sharp teeth for maximum gripping power and safety.

SMOOTH ADJUSTMENT

Knurled adjustment nut for easy and precise jaw size adjustment.

HEAVY DUTY BODY

Solid and thick body design ensures durability under high pressure and torque.

ERGONOMIC HANDLE

Comfortable handle provides better control and reduces hand fatigue.

HANGING HOLE

Convenient hanging hole for easy storage and workplace organization.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

PIPE WRENCH (SMALL SIZE)

(HEAVY DUTY)

CODE: WR-PW-015

WESAMROX Small Pipe Wrench is perfect for tight spaces and light to medium-duty plumbing jobs. Built with high strength materials for durability, precision and reliable performance.

COMPACT & POWERFUL

Compact design for working in narrow spaces with maximum efficiency.

STRONG JAWS

Precision machined teeth provide a firm grip and prevent slippage on pipes.

EASY ADJUSTMENT

Smooth knurled nut for quick jaw adjustment and secure locking.

DURABLE CONSTRUCTION

Made from high carbon steel for superior strength and long service life.

RUST RESISTANT

Anti-rust coating protects against corrosion in wet and harsh environments.

WIDE APPLICATION

Ideal for plumbing, maintenance, repair, installation and DIY projects.

SPECIFICATIONS

Size	8 inch (200 mm)
Max Jaw Opening	27 mm (1.1 inch)
Jaw Material	High Carbon Steel
Body Material	Ductile Cast Iron
Handle Type	Straight Handle
Adjustment Type	Knurled Nut
Tooth Type	Heat Treated Teeth
Overall Length	200 mm
Weight	360 g
Finish	Anti-Rust Coated
Packing	6 pcs / carton
Application	Plumbing, Pipe Fitting, Maintenance, Repair, DIY Projects

PRODUCT DETAILS

SHARP & STRONG JAWS

Heat treated jaws for maximum grip and long lasting use.

SMOOTH ADJUSTMENT

Knurled nut for precise and quick size adjustment.

HEAVY DUTY BODY

Strong and solid body design for tough job performance.

COMFORT GRIP

Ergonomic handle for comfortable grip and better control.

HANGING HOLE

Convenient hanging hole for easy storage and organization.

WESAMROX

— BUILT TO LAST. TRUSTED TO PERFORM. —

CABLE CUTTER

(HEAVY DUTY)

CODE: WR-CC-016

WESAMROX Cable Cutter is specifically designed for cutting copper and aluminum cables with maximum efficiency and safety. Drop forged high carbon steel jaws provide powerful cutting performance and long service life.

POWERFUL CUTTING

Precision ground blades for clean and easy cutting of copper and aluminum cables.

HIGH LEVERAGE DESIGN

Optimized leverage design reduces effort and allows one-hand operation.

STRONG & DURABLE

Drop forged high carbon steel construction for superior strength and durability.

ERGONOMIC GRIP

Non-slip TPR handles provide comfort, better control and less hand fatigue.

RUST RESISTANT

Anti-rust coating protects the tool from corrosion and harsh working environments.

WIDE APPLICATION

Ideal for electrical, construction, industrial, marine and daily maintenance use.

16
PRODUCT

SPECIFICATIONS

Material	High Carbon Steel
Blade Material	Heat Treated Steel
Cutting Type	Shear Cut
Max. Cutting Capacity	Copper Cable : 16 mm (5/8 inch) Aluminum Cable : 20 mm (3/4 inch)
Overall Length	250 mm (10 inch)

* Cutting capacity may vary depending on cable construction and hardness.

PRODUCT DETAILS

SHARP CUTTING BLADES

Heat treated shear blades ensure clean, smooth and effortless cutting.

STRONG PIVOT JOINT

High strength pivot joint ensures smooth action and long lasting durability.

ERGONOMIC HANDLES

Non-slip TPR handles provide excellent grip and reduce hand fatigue.

SAFETY LOCK

Convenient safety lock keeps the tool closed when not in use for safe storage.

PERFECT BALANCE

Well balanced design allows easy handling and precise cutting performance.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

STEEL WIRE ROPE SCISSORS

(HEAVY DUTY)

CODE: WR-SRS-016

WESAMROX Steel Wire Rope Scissors are specially designed for effortless cutting of steel wire ropes with maximum precision and safety. Drop forged from high carbon steel and heat treated for exceptional hardness and durability. Ideal for professional and industrial use.

PRECISE & CLEAN CUT

Precision ground blades ensure clean cuts without fraying or crushing the rope.

HIGH CUTTING POWER

Optimized leverage design for cutting high strength steel wire ropes with less effort.

STRONG & DURABLE

Drop forged high carbon steel construction for superior strength and long tool life.

COMFORT GRIP

Ergonomic non-slip handles provide comfort, control and reduce hand fatigue.

RUST RESISTANT

Anti-rust coating protects the tool from corrosion and harsh working environments.

WIDE APPLICATION

Perfect for rigging, lifting, towing, construction, marine, industrial and electrical works.

16
PRODUCT

SPECIFICATIONS

Material	High Carbon Steel
Blade Material	Heat Treated Steel
Cutting Type	Shear Cut
Cutting Capacity	Steel Wire Rope up to 16 mm (5/8 inch)
Overall Length	610 mm (24 inch)
Handle Type	Ergonomic Non-slip Grip
Weight	2.60 kg
Finish	Anti-Rust Coated
Packing	1 pc / box

CROSS PEIN HAMMER

(FIBERGLASS HANDLE)

CODE: WR-CPH-017

WESAMROX Cross Pein Hammer is perfectly balanced for metalworking, chiseling, and striking tasks. The cross pein design is ideal for shaping metal, driving pins and rivets, and working in tight spaces. Built for strength, accuracy and long-lasting performance.

CROSS PEIN DESIGN

The cross pein is perfect for metal shaping, starting punches and aligning holes.

DROP FORGED HEAD

Drop forged high carbon steel head for superior strength and durability.

HEAT TREATED

Heat treated head provides maximum hardness and impact resistance.

FIBERGLASS HANDLE

High strength fiberglass core with rubber grip for reduced vibration and secure handling.

ANTI-SLIP GRIP

Ergonomic non-slip rubber grip ensures comfort and control during heavy use.

WIDE APPLICATION

Ideal for metalworking, riveting, assembly, construction and workshop tasks.

SPECIFICATIONS

Head Material	High Carbon Steel
Head Type	Cross Pein
Head Weight	16 oz (1 lb) / 450 g
Handle Material	Fiberglass Core with Rubber Grip
Overall Length	320 mm (12.6 inch)
Face Diameter	29 mm
Pein Length	90 mm
Connection	Epoxy Bonded
Finish	Polished & Anti-Rust Coated
Weight	450 g
Packing	6 pcs / carton
Application	Metal Shaping, Chiseling, Punching, Riveting, Construction, Assembly, Workshop, DIY Projects

AVAILABLE SIZES

Model	Head Weight	Length	Face Diameter	Pein Length
WR-CPH-008	8 oz (1/2 lb)	265 mm (10.4")	24 mm	75 mm
WR-CPH-016	16 oz (1 lb)	320 mm (12.6")	29 mm	90 mm
WR-CPH-024	24 oz (1-1/2 lb)	360 mm (14.2")	32 mm	95 mm

WR-CPH-040	40 oz (2-1/2 lb)	400 mm (15.7")	36 mm	105 mm

PRODUCT DETAILS

SMOOTH STRIKING FACE

Precision ground face ensures solid impact and reduces damage to work.

CROSS PEIN END

Perfect for shaping metal, aligning holes, and starting punches or pins.

DROP FORGED HEAD

High carbon steel head delivers maximum strength and long service life.

FIBERGLASS HANDLE

High strength fiberglass core with rubber grip reduces vibration and improves safety.

ANTI-SLIP GRIP

Ergonomic rubber grip provides secure hold and less hand fatigue.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

SLEDGE HAMMER (FIBERGLASS HANDLE)

CODE: WR-SH-018

WESAMROX Sledge Hammer is built for the toughest demolition, driving, and striking applications. Engineered with a solid steel head and shock-absorbing fiberglass handle, it delivers maximum impact, control, and durability in the most demanding working conditions.

SOLID STEEL HEAD

Drop forged high carbon steel head for superior strength and long-lasting performance.

MAXIMUM IMPACT

Heavy-duty design provides powerful striking force for demolition and driving tasks.

SHOCK ABSORBING

Fiberglass core handle reduces vibration and minimizes fatigue for safer operation.

NON-SLIP GRIP

Ergonomic rubber grip ensures secure hold and excellent control during heavy use.

BUILT TO LAST

Heat treated head with anti-rust coating ensures durability and corrosion resistance.

WIDE APPLICATION

Ideal for construction, demolition, stone work, metalworking, workshops and industrial use.

WR-SH-008	8 LB (3.6 kg)	900 mm	145 x 52 x 90 mm	4.10 kg
WR-SH-010	10 LB (4.5 kg)	910 mm	160 x 55 x 100 mm	5.00 kg

PRODUCT DETAILS

SOLID STEEL HEAD

Drop forged steel head for maximum strength and impact performance.

FIBERGLASS HANDLE

High strength fiberglass core reduces vibration and increases durability.

NON-SLIP RUBBER GRIP

Ergonomic soft grip provides comfort and prevents slippage.

SHOCK ABSORBING

Shock absorbing design minimizes user fatigue and improves safety.

POWERFUL STRIKING

Designed for heavy-duty striking, demolition and construction work.

WESAMROX

BUILT TO LAST. TRUSTED TO PERFORM.

RIP CLAW HAMMER

(FIBERGLASS HANDLE)

CODE: WR-RH-019

WESAMROX Rip Claw Hammer is designed for framing, carpentry, and general construction. The rip claw design provides superior leverage for prying, pulling, and demolition tasks. Built with a forged steel head and a shock-reducing fiberglass handle for strength, comfort, and long-lasting performance.

RIP-CLAW DESIGN

Specially designed rip claw for maximum leverage in prying, pulling and demolition.

FORGED STEEL HEAD

Heat treated forged steel head ensures maximum strength, durability and safety.

SHOCK ABSORBING

Fiberglass core handle reduces vibration and impact for better control and comfort.

NON-SLIP GRIP

Ergonomic rubber grip provides secure hold and reduces hand fatigue.

BUILT TO LAST

Anti-rust coating and solid construction ensure long service life in tough conditions.

WIDE APPLICATION

Perfect for framing, carpentry, roofing, woodworking, DIY and general construction.

PRODUCT

SPECIFICATIONS

Head Material	High Carbon Steel
Head Type	Rip Claw
Head Weight	16 oz (1 lb) / 450 g
Handle Material	Fiberglass Core with Rubber Grip
Connection	Epoxy Bonded
Finish	Polished & Anti-Rust Coated
Overall Length	330 mm (13 inch)
Face Diameter	29 mm
Claw Type	Rip Claw
Handle Type	Ergonomic Non-Slip Grip
Weight	450 g
Packing	6 pcs / carton
Application	Framing, Carpentry, Prying, Pulling Nails, Demolition, Roofing, Woodworking, DIY, Construction

AVAILABLE SIZES

Model	Head Weight	Overall Length	Face Diameter	Claw Length	Weight
WR-RH-008	8 oz (1/2 lb)	280 mm (11")	23 mm	75 mm	300 g
WR-RH-016	16 oz (1 lb)	330 mm (13")	29 mm	90 mm	450 g
WR-RH-020	20 oz (1-1/4 lb)	345 mm (13.5")	31 mm	100 mm	560 g
WR-RH-024	24 oz (1-1/2 lb)	360 mm (14")	32 mm	105 mm	650 g
WR-RH-032	32 oz (2 lb)	380 mm (15")	34 mm	115 mm	820 g

PRODUCT DETAILS

SMOOTH STRIKING FACE

Precision machined face ensures solid impact and reduces damage to work.

RIP CLAW DESIGN

Deep rip claw provides excellent leverage for easy prying and nail pulling.

FORGED STEEL HEAD

Strong forged steel head for maximum durability and long service life.

FIBERGLASS HANDLE

Shock absorbing fiberglass core handle reduces vibration and increases safety.

NON-SLIP RUBBER GRIP

Ergonomic rubber grip design ensures comfort and secure handling.

AXE (FIBERGLASS HANDLE)

CODE: WR-AX-020

WESAMROX Axe is designed for powerful cutting, splitting, and general outdoor use. Forged steel axe head ensures superior sharpness and durability while the fiberglass handle with TP Rubber grip provides maximum strength, shock absorption and comfort.

FORGED STEEL HEAD

Drop forged & heat treated steel head for maximum strength and long-lasting sharpness.

SHARP & DURABLE BLADE

Precision ground blade for efficient cutting and splitting performance.

FIBERGLASS HANDLE

High strength fiberglass core resists breaking, bending and weather.

TP RUBBER GRIP

Ergonomic non-slip rubber grip provides comfort and secure handling.

SHOCK ABSORBING

Shock absorbing handle reduces vibration and arm fatigue during heavy use.

WIDE APPLICATION

Ideal for wood chopping, camping, forestry, gardening and outdoor work.

PRODUCT DETAILS

SHARP POLISHED BLADE

Precision ground blade for clean cutting and easy wood penetration.

STRONG AXE HEAD

Drop forged steel head for superior strength and durability.

FIBERGLASS HANDLE

High strength fiberglass handle for maximum toughness and safety.

TP RUBBER GRIP

Ergonomic non-slip grip ensures secure hold and reduces hand fatigue.

PERFECT BALANCE

Well balanced design for powerful swings and better control.

SPLITTING AXE

(FIBERGLASS HANDLE)

CODE: WR-AX-021

WESAMROX Splitting Axe is engineered for splitting logs, firewood, and kindling with maximum efficiency. The forged steel head delivers exceptional splitting power while the fiberglass handle with TP rubber grip ensures strength, comfort, and shock absorption.

FORGED STEEL HEAD

Heat treated forged steel head for superior hardness, durability and long lasting performance.

WIDE SPLITTING BLADE

Wide blade design for efficient wood splitting with less effort and more power.

FIBERGLASS HANDLE

High strength fiberglass core resists breaking, bending and weather.

TP RUBBER GRIP

Ergonomic non-slip rubber grip provides comfort, secure hold and reduces fatigue.

SHOCK ABSORBING

Shock absorbing handle reduces vibration and arm fatigue during heavy use.

IDEAL APPLICATION

Perfect for firewood cutting, log splitting, camping, forestry and outdoor work.

PRODUCT DETAILS

SHARP SPLITTING BLADE

Precision ground blade for easy and efficient log splitting.

FORGED STEEL HEAD

Drop forged steel head for maximum strength and long service life.

FIBERGLASS HANDLE

High strength fiberglass handle for durability and heavy duty performance.

TP RUBBER GRIP

Ergonomic anti-slip grip ensures secure handling and reduces fatigue.

HANGING HOLE

Convenient hanging hole for easy storage and organization.

MACHINIST HAMMER

(GERMANY TYPE)

CODE: WR-MH-022

WESAMROX Machinist Hammer is manufactured with high quality forged steel for superior strength and durability. It is perfectly balanced for precision striking, shaping and assembling in metalworking and general workshop applications.

FEATURES

FORGED STEEL HEAD

Drop forged & heat treated steel head ensures maximum strength and long lasting performance.

PRECISION STRIKING

Precision balanced head for accurate striking and reduced vibration.

COMFORTABLE HANDLE

Hardwood or fiberglass handle with TPR grip provides comfort and secure handling.

STRONG & DURABLE

Built with high quality materials to withstand heavy duty impact and tough workshop conditions.

MULTI PURPOSE USE

Ideal for machining, riveting, assembly, maintenance and general workshop tasks.

Polished Face For Better Performance

Strong & Durable Forged Steel Head

PRODUCT DETAILS

POLISHED FACE

Polished striking face for better accuracy and less damage.

FORGED STEEL HEAD

Drop forged steel head with heat treatment for maximum strength.

WOODEN HANDLE

Natural hickory hardwood handle offers shock absorption and comfort.

FIBERGLASS HANDLE

Fiberglass handle with TPR grip for durability and anti-slip control.

NON-SLIP GRIP

Ergonomic design ensures secure hold and reduces hand fatigue.

BALL PEIN HAMMER

CODE: WR-BH-023

WESAMROX Ball Pein Hammer is designed for shaping metal, striking chisels, punches and general purpose work. Forged from high quality carbon steel for extra strength and durability. Ergonomic handle provides comfort, control and reduces vibration.

HIGH QUALITY
 Carbon Steel

STRONG & DURABLE
 Built for heavy duty

SHOCK RESISTANT
 Reduce vibration

FEATURES

FORGED STEEL HEAD

Drop forged & heat treated head for maximum strength and long service life.

BALL PEIN DESIGN

Round pein for shaping metal and flat face for general striking and driving.

COMFORTABLE GRIP

Ergonomic non-slip handle reduces vibration and improves control.

STRONG & RELIABLE

High quality materials ensure durability and reliable performance.

MULTI PURPOSE

Ideal for metalworking, riveting, assembly, maintenance and DIY applications.

POLISHED STRIKING FACE
 Smooth striking surface for better accuracy.

BALL PEIN END
 Perfect for shaping and forming metal.

TRANSPARENT RUBBER HAMMER WITH PLASTIC HANDLE

CODE: WR-TRH-024

WESAMROX Transparent Rubber Hammer with Plastic Handle is made of high quality transparent rubber for non-marring strikes and surface protection. The plastic handle offers a comfortable grip, is lightweight and durable. Ideal for carpentry, assembly, furniture, ceramics, and general purpose applications.

SOFT & SAFE
Non-marring head protects surfaces

DURABLE
High quality rubber for long life

COMFORT GRIP

Perfect fit for better comfort and control

WORK GLOVES

PVC COATED

CODE: WR-PG-031

WESAMROX PVC Coated Work Gloves are designed for maximum grip, comfort and durability in various working conditions. They are ideal for protection against abrasion, cuts, oils and general hazards in industrial and daily tasks.

STRONG GRIP

Excellent grip in dry, wet & oily conditions

ABRASION RESISTANT

High resistance to wear, tear & abrasion

OIL & WATER RESISTANT

Protects hands from oil, grease & liquids

COMFORTABLE FIT

Flexible & ergonomic design for all-day use

BREATHABLE LINING

Seamless knit liner for comfort & ventilation

MULTI-PURPOSE

Perfect for various industrial applications

AVAILABLE COLORS:

PRODUCT DETAILS

PVC COATING

High quality PVC coating for superior grip and durability

ELASTIC CUFF

Elastic wrist design prevents dirt from entering

ANTI-SLIP GRIP

Textured surface for better grip in wet and oily conditions

FLEXIBLE & COMFORTABLE

Soft lining and flexible material for all-day comfort

HIGH VISIBILITY

Bright colors for better safety in dangerous areas

BREATHABLE LINER

Seamless knit liner provides comfort and ventilation

DOUBLE BEARING WHEEL

CODE: WR-BW-032

WESAMROX Double Bearing Wheels are made of high quality steel with double bearings for smooth and quiet operation, high load capacity and long service life. Widely used in sliding gates, doors, windows and industrial equipment.

DOUBLE BEARING DESIGN

Smooth operation and low noise

HIGH QUALITY STEEL

Strong, durable and wear resistant

MULTI-SURFACE FINISH

Corrosion resistant and long lasting

HIGH LOAD CAPACITY

Built for heavy duty applications

SMOOTH MOVEMENT

Double bearings for effortless sliding

RUST & CORROSION RESISTANT

Surface treatment for extended lifespan

EASY INSTALLATION

Simple structure for quick mounting

WIDE APPLICATION

Suitable for gates, doors, windows & more

APPLICATIONS

- Sliding Gates
- Sliding Doors
- Windows
- Industrial Machinery
- Conveyor Systems
- Warehouse Equipment
- Furniture & Cabinets

RECOVERY TOW ROPE

CODE: WR-RR-033

WESAMROX Recovery Tow Ropes are designed for vehicle recovery, towing and pulling applications. Made from high strength synthetic fibers, with reinforced eyes and protective sleeves for maximum durability and safety.

HIGH STRENGTH

High tensile strength for heavy duty use

DURABLE & RELIABLE

Abrasion & UV resistant for long service life

PROTECTIVE SLEEVES

Reinforced sleeves for extra protection

FLEXIBLE & LIGHTWEIGHT

Easy to handle and store

WIDE APPLICATION

Ideal for towing, recovery & pulling tasks

APPLICATIONS

-  Vehicle Recovery
-  Towing & Pulling
-  Off-Road Adventures
-  Emergency Rescue
-  Transport & Logistics
-  Construction & Industrial Use

AVAILABLE COLORS:

PRODUCT DETAILS

HIGH QUALITY FIBER

Made from premium synthetic fiber for maximum strength

REINFORCED EYES

Strong loop eyes for secure attachment

PROTECTIVE SLEEVES

Reduces wear and extends rope life

TIGHT WEAVE

Tightly woven for durability and better performance

EASY STORAGE

Comes with carry bag for easy storage & transport

MULTI-PURPOSE

Perfect for recovery, towing and general pulling

WHEELBARROW

HEAVY DUTY

CODE: WR-WB-034

WESAMROX Wheelbarrows are built for tough jobs on any terrain. Strong, stable and easy to maneuver, they are ideal for construction, agriculture, gardening and industrial use. Designed for maximum load capacity, long-lasting performance and operator comfort.

HIGH LOAD CAPACITY

Built for Heavy Loads
& Tough Jobs

STRONG STEEL FRAME

Durable Steel Frame for
Extra Strength

PUNCTURE RESISTANT

High Quality Wheel for
Smooth Movement

COMFORT GRIP HANDLES

Ergonomic Handles for
Better Control

RUST & CORROSION RESISTANT

Powder Coated Finish for
Long Service Life

APPLICATIONS

-  Construction Sites
-  Agriculture & Farming
-  Gardening & Landscaping
-  Industrial & Factory Use
-  Warehouse & Material Handling
-  Municipal & Road Work

WORKWEAR SET PROFESSIONAL GRADE

CODE: WR-WW-044

WESAMROX Workwear Set is designed for maximum comfort, durability and protection in demanding work environments. Made from premium fabrics with reinforced stitching for long lasting performance.

DURABLE & STRONG

High quality fabric with reinforced stitching for excellent tear and abrasion resistance.

COMFORTABLE FIT

Ergonomic design ensures freedom of movement and all-day comfort.

MULTIPLE POCKETS

Multi-functional pockets for tools, phones and personal items.

BREATHABLE FABRIC

Breathable material keeps you cool and reduces sweat.

SAFETY & PROTECTION

Provides protection against dust, dirt and minor workplace hazards.

EASY CARE

Machine washable, color fast and easy to maintain.

WIDE APPLICATION

Ideal for construction, factory, workshop, logistics, maintenance and general labor.

HIGH QUALITY EMBROIDERY

Premium embroidery for professional look.

MULTI POCKET DESIGN

Convenient storage for tools and items.

PREMIUM FABRIC

Strong, breathable and comfortable.

BOLTS, NUTS & SCREWS

PROFESSIONAL GRADE

CODE: WR-BN-045

WESAMROX Bolts, Nuts & Screws are manufactured from high quality steel for superior strength, durability and reliability. Ideal for construction, machinery, automotive, industrial and general fastening applications.

HIGH STRENGTH STEEL

Made from premium carbon steel with excellent tensile strength and durability.

PRECISION THREADS

Accurate and deep threads for strong grip, easy installation and secure fastening.

CORROSION RESISTANT

Zinc plated coating provides excellent protection against rust and corrosion.

WIDE RANGE

Various sizes and types to meet different application requirements.

EASY TO USE

Standard design ensures compatibility and easy use with common tools.

MULTI APPLICATION

Suitable for construction, machinery, automotive, furniture and home use.

STRONG HEAD MARKING

Clearly marked for strength class and easy identification.

ZINC PLATED FINISH

Smooth zinc coating for enhanced rust protection and long life.

STEEL NAILS

PROFESSIONAL GRADE

CODE: WR-SN-046

WESAMROX Steel Nails are manufactured from premium quality steel wire with high tensile strength for superior holding power and long lasting performance. Smooth shank for easy driving and excellent penetration.

HIGH HOLDING POWER

High tensile strength for maximum holding and excellent performance.

SMOOTH & EASY DRIVING

Polished surface and sharp point for easy penetration and reduced splitting.

RUST RESISTANT

Black polished or galvanised finish provides excellent rust resistance and durability.

CONSISTENT QUALITY

Precise manufacturing ensures uniform size, strong structure and reliable results.

WIDE APPLICATION

Ideal for construction, carpentry, woodworking, pallet, crate, furniture and general use.

STRONG HEAD

Large head design for better grip and strong holding power.

PVC SAFETY BOOTS

PROFESSIONAL GRADE

CODE: **WR-SB-052**

WESAMROX PVC Safety Boots are engineered for tough working conditions and all-day comfort. Made from high quality PVC material, these boots are waterproof, oil resistant, slip resistant and durable. Ideal for construction, agriculture, factories, cleaning, and wet or muddy environments.

100% WATERPROOF

Premium PVC material keeps your feet dry in wet and muddy conditions.

SLIP RESISTANT SOLE

Anti-slip outsole provides excellent grip on wet, oily and slippery surfaces.

OIL & CHEMICAL RESISTANT

Resistant to oils, acids, and chemicals for maximum protection.

STEEL TOE PROTECTION

Steel toe cap protects feet from impact and compression hazards (200J).

COMFORT DESIGN

Ergonomic design with spacious fit for comfort during long working hours.

DURABLE & LONG LASTING

Strong PVC construction for long life and heavy duty use.

EASY TO CLEAN

Smooth surface for easy cleaning and quick drying.

WIDE APPLICATION

Perfect for construction sites, farming, fishing, factories, mines and rainy days.

STEEL TOE CAP
Protects toes from heavy impact and compression.

WATERPROOF PVC
High quality PVC material provides 100% waterproof protection.

GREASE GUN

PROFESSIONAL SERIES

CODE: WR-GG-054

WESAMROX Grease Gun is designed for efficient lubrication in automotive, industrial, construction and agricultural applications. Built from high quality materials, it delivers smooth performance, high pressure and long service life even in the toughest conditions.

HIGH PRESSURE PERFORMANCE

Develops up to 10,000 PSI pressure for smooth and efficient lubrication.

HEAVY DUTY CONSTRUCTION

Zinc alloy head and thick steel barrel for maximum strength and durability.

LEAK PROOF DESIGN

Precision engineered parts ensure no leakage and mess-free operation.

COMFORT GRIP HANDLE

Ergonomic lever handle provides comfortable grip and reduces hand fatigue.

FLEXIBLE & VERSATILE

Works with 14oz cartridge, bulk grease or suction fill for different needs.

WIDE APPLICATION

Ideal for trucks, heavy machinery, bearings, joints, equipment and more.

ZINC ALLOY HEAD

Strong and durable head with high pressure resistance.

POWERFUL SPRING

Heavy duty spring ensures smooth priming and high pressure output.

THICK STEEL BARREL

Thickened seamless barrel for extra strength and long lasting performance.

• High Pressure Performance • Durable Steel Barrel • Leak Proof Design • Easy Refill • Flexible Hose • Multi Purpose Use

PRODUCT DETAILS

ZINC ALLOY HEAD

Strong head for high pressure and long service life.

POWERFUL SPRING

Heavy duty spring for smooth priming and operation.

THICK STEEL BARREL

Seamless steel barrel with anti-rust coating for durability.

4-JAW COUPLER

Secure 4-jaw coupler for tight and leak free connection.

COMFORT HANDLE

Ergonomic handle design for easy and comfortable use.

PACKAGING

- ✓ Strong & Attractive Packaging
- ✓ Protects Product During Transport
- ✓ Easy to Store & Carry
- ✓ Perfect for Wholesale & Retail

WESAMROX

— BUILT TO LAST. TRUSTED TO PERFORM. —

We are committed to providing high quality hand tools that empower professionals worldwide to build, create and achieve more.

QUALITY • RELIABILITY • PERFORMANCE

PREMIUM QUALITY

Carefully selected materials for superior quality.

STRONG & DURABLE

Built to withstand the toughest working conditions.

EXCEPTIONAL PERFORMANCE

Designed for maximum efficiency and productivity.

COMFORTABLE GRIP

Ergonomic design for safer and easier work.

RUST RESISTANT

Anti-rust treatment for long lasting protection.

WIDE APPLICATION

Ideal for various industries and applications.
